

Angelic Feast

Weddings, Parties, Dinners, Picnics, BBQ

If you desire a pop up curry night, or greek bbq, whether it be simple or grand, in your home or at a chosen location, we will create the perfect feast.

Mobile and Location Catering.

Angelic Feast works with a magical catering van, equipped with a shiny modern kitchen, that can travel. It is supported by a catering tent, and a small dining tent.

We can cater for groups in a field, or at the beach, in the middle of nowhere, or in the middle of the city.

Fairtrade and organic coffees, teas, hot chocolate and snacks, support a full feast offering of hot meals and fresh salads, whatever the weather!

Retreats & Group cooking

Over 15 years, i have catered for a large number of groups, in the nature of yoga, tai chi, meditation, sufism, buddhism, self -development and healing.

The diet in the retreats space touches the lighter aspects of food. Often people avoid wheat, sugar, dairy, eggs, and various other specifics. This food is holy food, and is created lovingly with very pure intention.

EARTH FRIENDLY CATERING

Events, Location & Private Catering

Angelic Feast is a fair trade, organic catering service.

Angelic Feast offers simply delicious and tasty food, that is inspired by many cultures, with a focus on clean and fresh.

I offer a discrete & professional service. For 30 years, I have catered for a wide range of clients from media, music, diplomatic, corporate, spiritual, private and abroad.

We happily support all dietary special needs, including gluten free, dairy free, vegan etc.

Food as Medicine

Alexandra is a healing cook and nutrition consultant.

For 15 years i have also been working with food as medicine, creating diets and cooking for individuals and groups who are working with specific health needs and transformation diets.

By making simple changes in our diets, and working with specific foods that support our health, we can transform and support our health.

Nutritional consultation is available by appointment.
